

National Estate Planning Awareness Month / Week

H. Res. 1499

September 27, 2008

In 2007 founders of The Financial Awareness Foundation approached Congressman's Mike Thompson office with the idea of creating a National Estate Planning Awareness Week Congressional proclamation. After eighteen months of research and work Congressman Thompson and 49 bipartisan congressmen and congresswomen co-authored and passed H.Res. 1499; proclaiming the third week in October as National Estate Planning Awareness Week. The full text of the proclamation can be found below.

We are grateful for the support and vision of Rep. Mike Thompson and the following 49 members of the 2008 House of Representatives who helped make National Estate Planning Awareness Week possible:

H. Res. 1499

In the House of Representatives, U. S., September 27, 2008.

Whereas it is estimated that over 120,000,000 Americans do not have up-to-date estate plans to protect themselves or their families in the event of sickness, accidents, or untimely death;

Whereas a 2004 Roper poll commissioned by the American Institute for Certified Public Accountants found that two-thirds of Americans over age 65 believe they lack the knowledge necessary to adequately plan for retirement, and nearly one half of all Americans are unfamiliar with basic retirement tools, such as a 401(k) plan;

Whereas careful estate planning can greatly assist Americans in preserving assets built over a lifetime for the benefit of family, heirs, or charities;

Whereas estate planning involves many considerations, including safekeeping of important documents, documentation of assets, operation of law in the various States, preparation of legal instruments, insurance, availability of trust arrangements, charitable giving, inter vivos care of the benefactor, and other important factors;

Whereas estate planning encourages timely decisions about the method of holding title to certain assets, the designation of beneficiaries, and the possible transfer of assets during the life of the benefactor;

Whereas many Americans are unaware that lack of estate planning and 'financial illiteracy' may cause their assets to be disposed of to unintended parties by default through the complex process of probate;

Whereas alternatives to disposition of assets after death, such as planned gift-giving, may accomplish a benefactor's goal of providing for his or her family and favorite charities;

Whereas careful planning can prevent family members or other beneficiaries from being subjected to complex legal and administrative processes requiring significant expenditure of time, and greatly reduce confusion or even animosity among family members or other heirs upon the death of a loved one;

Whereas important considerations as to donation of organs and use of life support functions may be made through the estate planning process;

Whereas the implementation of an estate plan starts with sound education and planning, and then may require the proper drafting and execution of appropriate legal documents, including wills, trusts, and durable powers of attorney for health care;

Whereas the third week of October should be designated as 'National Estate Planning Awareness Week'; and

Whereas the National Association of Estate Planners and Councils, representing over 28,000 estate planning professionals, together with the Universal Press Syndicate, the largest independent newspaper syndicate in the world, are prepared to provide such educational information to the public in a focused manner during National Estate Planning Awareness Week:

Now, therefore be it Resolved, That the House of Representatives—

(1) encourages the distribution of estate planning information by professionals to all Americans; and

(2) supports the designation of a 'National Estate Planning Awareness Week'.

We are currently working on refreshing and expanding the proclamation making the Month of October National Estate Planning Awareness Month. We are also working to get all 50 state governors to create and sign supporting proclamations proclaiming October as Estate Planning Awareness Month. As such you will see the following reference National Estate Planning Awareness Month/Week (NEPAM/W).

Ask your State Governor and other political contacts to provide supporting proclamations for Financial Literacy Month April and for Estate Planning Awareness Month in October. Semi-annually contact your state governor and request a supporting proclamation for

We Have A Serious Problem that Requires Immediate Attention

With so many people on the verge of running out of money before their life expectancy, many families burdened with large amounts of student loans and other forms of debt, and more than half of our adults do not have nor understand why it's important to have an up-to-date financial, estate and plan to protect themselves and their families, we have a serious problem. This lack of financial awareness and financial literacy places a **HUGE** growing amount of pressure on families and friends, employers, nonprofits; as well as the government.

Do You Realize?

- The majority of the adults in the US that reach the age of 70 are almost out of money, but have life expectancies well into their mid-80's and maybe into their 90's. That's disastrous. Who will be responsible for them? The choices are few, family and friends, employers, nonprofits and people with money, and the government as a final safety net.
- Over 120 million adults, 50% of our adult population (that could be half your family and friends and business associates) don't have nor understand why it is important to have a current financial, estate and gift plan to protect themselves and their assets in the event of sickness or when they pass away. This is a real problem, as most feel they don't have an estate to plan for; this is NOT TRUE. Estate planning is not just for the wealthy and is important for everyone. With some advance planning, issues such as managing bill paying and assets in the event of sickness or disability, guardianship of children, care of a special needs child and long-term care needs, and distribution of retirement plan and other assets to the correct person(s) and nonprofit(s) at ones death can all be handled with sensitivity, care, and at a reasonable cost.
- Too many young people and their families are burdened with excessive education debt and other forms of debt.
- The Consumer Financial Protection Bureau released a report in January that examined the link between financial education and financial well-being. A key finding was that while many adults desire to educate themselves to become more financially literate, they often seek out that information only within their social networks. This cuts across all demographics, including education level and income. **This is quite alarming:** People are making critical life decisions based on information gained from non-experts and fragmented sources.
- We have entered into the greatest wealth transfer in history. An estimated \$59 trillion - divided among heirs, charities, estate taxes and estate closing costs - will be transferred from 116 million American households from 2007 to 2061 as reported by John J. Havens and Paul G. Schervish from the Center on Wealth and Philanthropy Boston College.
- Without some financial and estate planning a significant amount of these assets will be wasted; much of the remaining assets may not go to the right person(s) or organization(s), and or may not be used as intended. However, this huge wealth transfer is not for all families, many will run out of money long before passing.
- This is not just a domestic challenge it is an international one.

Managing personal finances today is more complicated and more important than ever. We're living longer, but saving proportionately less. Scores of us feel less secure in our jobs and homes than we did in the past. We see our money being drained by the high cost of housing, taxes, education, health care, while dealing with the uncertainty of investments and our economy. We worry about the future, or unfortunately in many cases, simply try not to think about it.

Most people are not taught the essential principle to smart personal financial management at home or in school, thus they don't have the proper tools to address every day financial decisions in an informed manner. This jeopardizes their financial and physical wellness, their ability to realistically achieve and maintain their personal and financial dreams, let alone enjoy a financially secure debt free future.

People need access to better personal financial management tools and information, to communicate and work more effectively with their financial advisors, and to make better every day informed financial decisions.

Together we have the potential to advance and contribute to one of the most amazing, broad-based, multifaceted campaigns for improving financial awareness and financial literacy.

The Solution / Master Plan / How Everyone Benefits

Wouldn't it be great if there is a real solution to this lack of financial awareness and financial illiteracy epidemic?

We strongly believe there is, and it revolves around better educating the general public, educators, financial service and nonprofit professionals to the essential principles to smart personal financial management – the foundation to personal finance knowledge - while motivating them to get and keep the financial, estate and gift plans in order. People need access to better personal financial management tools and information, to communicate and work more effectively with their financial advisors – (that includes fee-based service providers and sales people), and to make better informed every day money decisions.

Supporting improving financial awareness and financial literacy is a winning opportunity for all. Working with the thought leading professionals within the financial, estate and charitable gift planning industries, we have first-hand experience with the successes and challenges Americans face. The goals are to:

- Substantially improve financial awareness and financial literacy across all ages, incomes and demographic groups.
- Alert the general public why having a current and up-to-date financial, estate, gift plan is an important financial responsibility not only to themselves but to their families, loved ones, and their personal philanthropy.
- Inform and educate the general public, in an entertaining format, to the essential principles to smart personal financial management.
- Motivate the general public to take action to get and keep their financial house in order with up-to-date financial, estate, and gift plans.
- Guide the general public to find to the right professionals to cost effectively implement and update their financial, estate, and giving plans.
- Educate financial service and nonprofit professionals and their organizations to better serve their clients, the general public, and potential donors.

The Strategy

The strategy is to recognize organizations and their management that are championing improving financial awareness and financial literacy. Then uniting them with other associations, organizations, nonprofits, educational institutions, municipalities, and employers to actively focus their vast community resources into a growing concentrated personal finance content media blitz every six months around the strategic campaign venues of:

- **National Financial Literacy Month** – In 2004 the Senate passed Resolution 316 that officially recognized April as National Financial Literacy Month. In 2016 President Obama signed a Presidential Proclamation proclaiming April as National Financial Capability Month. www.TheFinancialAwarenessFoundation.org/pdf/About-NationalFinancialLiteracyMonth.pdf
- **National Estate Planning Awareness Month/Week** – In 2007 founders of The Financial Awareness Foundation approached Congressman's Mike Thompson office with the idea of creating a National Estate Planning Awareness Week Congressional proclamation. After eighteen months of research and work he and 49 bipartisan congressmen and congresswomen co-authored and passed H.Res. 1499, which proclaims the third week in October as National Estate Planning Awareness Week. www.TheFinancialAwarenessFoundation.org/pdf/About-NationalEstatePlanningAwarenessWeek.pdf

The plan is to touch the majority of the general public, high net worth individuals, financial service and nonprofit professionals and their organizations at least twice a year through these strategic venues, with **educational and motivating reminders to get and keep their financial, estate, and gift plans in order.**

The objective is to encourage financial / nonprofit / education professionals and their organizations, employers, municipalities, and the news media to actively participate in this movement to alert, educate, motivate, and assist everyone to cost effectively establish and keep their estate and financial plans and gifting plans current; 120 million America's-half the adults; rich to poor - that don't have plans.

We encourage you to join us and other financial service and nonprofit organizations and professional associations such as: the American Institute of Certified Public Accountants, the Society of Attorney-Certified Public Accountants, the American Bar Association Section of Real Property, Trust and Estate Law; the Association of Fundraising Professionals, the Society of Financial Service Professionals, the National Academy of Elder Law Attorneys, National Association of Estate Planners and Councils, the National Association of Charitable Gift Planners, the Financial Planning Association®, and The International Association of Advisors in Philanthropy that have supported National Financial Literacy Month and National Estate Planning Awareness Month/Week.

We understand that this is a massive undertaking. As we move into the 10th year of the **Improving Financial Awareness & Financial Literacy Movement** it's being accomplished through leading organizations and their associates that include:

- Financial service associations and their members
- Nonprofit associations and their members
- Financial service professionals and their companies
- Nonprofits / Employers / Technology companies
- Educational institutions
- Government entities
- News media

Together these organizations represent nearly 1,000,000 financial professionals. The accountants, attorneys, estate planners, financial planners and advisors, insurance agents and brokers, trust officers, and nonprofit executive directors and development officers that are members of these organizations are helping to mobilize the financial and estate planning and nonprofit communities by providing support, tools, and education for their professionals and the general public they serve.

This is supplemented throughout the year with the develop and delivery of exceptional educational content, programs and tools to the general public and to financial service and nonprofit professionals and their organizations, and educational institutions that support the general public's financial and estate planning and charitable planning needs.

How Everyone Benefits

What a great opportunity for you to create goodwill and new revenue opportunities while performing a very important and values community service.

- You benefit by being recognized as a thought leader that is significantly helping to solve a major social problem. This will create goodwill for you and your organization that will attract new patrons, retain existing ones, and build support for your own other initiatives.
- You, your staff, patrons, and prospects benefit by receiving personal financial and estate planning materials to improve their personal financial position and receive a powerful campaign and program to use within your organization to generate new sources of revenues.
- Families benefit by learning the essential principles to smart financial management so they can empower themselves to make better, informed and productive everyday financial decisions, save time and money with their financial advisors and service providers, and have the best possibilities to reach and maintain their personal and family financial dreams, to enjoy a financial secure debt free future, while they advance their personal philanthropy and legacy.
- Financial service professionals and their organizations benefit by acquiring new business from more informed and motivated clients.
- Employers benefit from having employees who are less stressed, happier and more productive.
- Nonprofits and fundraisers benefit with increased donations, planned gifts, alternate beneficiary selections and bequests.
- Universities benefit by having alumni, faculty and staff who are less stressed, happier and more productive and more philanthropic.
- Philanthropists benefits by helping to solve a major social problem that leads to a better world.
- The news media benefits by providing its audience with timely valuable information.
- Municipalities benefit by having happier and financially successful constituents, and a reduced strain on social welfare services.
- Everyone actually benefits with a stronger and financially sound economy.

This is a great opportunity to "strengthen relationships" with clients and prospects and associates, generate new revenue opportunities for financial service / nonprofit / education professionals, while producing needed gifts and bequests for many educational institutions and nonprofits. Most importantly, this also goes a long way to solving the lack of financial awareness and financial illiteracy epidemic.

Together we have the potential to help solve a major social challenge by advancing and contributing to one of the most broad-based, multifaceted moments for improving financial awareness and financial literacy while advancing philanthropy.

Ways to Participate in The Improving Financial Awareness & Financial Literacy Movement & Campaigns
