About The Financial Awareness Foundation (TFAF)

TFAF is a 501(c)(3) USA-based nonprofit organization. Its mission is to significantly help solve a major social challenge dealing with the lack of financial awareness along with the financial illiteracy epidemic. They believe that teaching financial awareness, financial literacy and the essential principles of smart money management are so very important. This provides people the tools of empowerment for making lifelong informed money decisions, giving them the best probability of living a quality life without outliving their wealth; and for passing on personal values, knowledge & assets to future generations to make their lives & this world a better place.

TFAF has two main focal points and they revolve around:

- Taking an active leadership role to recognize organizations and their management that are championing improving financial awareness and financial literacy. Unite them with other associations, organizations, nonprofits, educational institutions, municipalities, employers, and the news media to actively focus their vast community resources on **The Improving Financial Awareness & Financial Literacy Movement** around a growing concentrated personal finance content media blitz every six months through the strategic campaign venues celebrating
 - ♦ April as **Financial Literacy Month** and six months later
 - ♦ October as **Estate & Gift Planning Awareness Month**

The plan is to touch the majority of the general public, high net worth individuals, financial service and nonprofit professionals and their organizations at least twice a year through these strategic venues, with educational and motivating reminders to get and keep their financial house in order with current financial, estate, and gift plans.

To help address the global lack of financial awareness and the financial illiteracy epidemic **The Movement** began in the USA over a decade ago; global financial literacy initiatives are increasing; we are contacted regularly for assistance, content, and ideas from around the world. In 2018 we began **The Improving Financial Awareness & Financial Literacy Movement** in several East African Countries. This will touch ~ 150 million people; modeled after our work in the US. In 2020 The Movement expanded into Ghana – West Africa, South America, and India. We now have **The Movement** developing within 5 continents, over a dozen plus countries. We also have initiated development activities and discussions for **The International Improving Financial Awareness and Financial Literacy Research Centers** in Universities each country domestically and internationally. They are planning on taking leadership roles within their country's and community's improving financial awareness and financial literacy activities.

To help unit the youth around the world on this important initiative we launched **The Improving Financial Awareness & Financial Literacy Youth Movement**.
