The Improving Financial Awareness & Financial Literacy Movement in Somalia Executive Summary / Overview

Somalia has a population of over 15 million with a workforce of about 48%, and an unemployment rate over 13%. However, this leaves over 10 million Somalians (64% of our population) so poor they cannot afford three meals a day for themselves and their family; in rural areas it is higher. Many are struggling to survive less than \$1.90 USD per day. (International Poverty Line) ⁽¹⁾. We are also experiencing increases in debt.

We are not taught at home or school about planning for our future and why it's important to have current financial, estate and gift plans to protect ourselves and our families. We have a collection of serious problems resulting in a high percentage of poverty. Moreover, we have a lack of financial awareness resulting in a **serious financial illiteracy epidemic**. This places a **HUGE** growing amount of pressure on families and friends, employers, nonprofits; as well as the ultimate safety net the government. This is not just a local epidemic it's an international one.

Earning and building personal wealth and managing personal finances today are more complicated and more important than ever. We're living longer and need to earn more, save more, and invest more wisely to build financial resources to care for ourselves and families. Many of us are insecure with our work and the future of our homes. We see our money being drained by the high cost of food and water, healthcare, housing, education, and taxes while dealing with the uncertainty of investments in our local and global economy. We worry about the future, or unfortunately in many cases, simply try not to think about it.

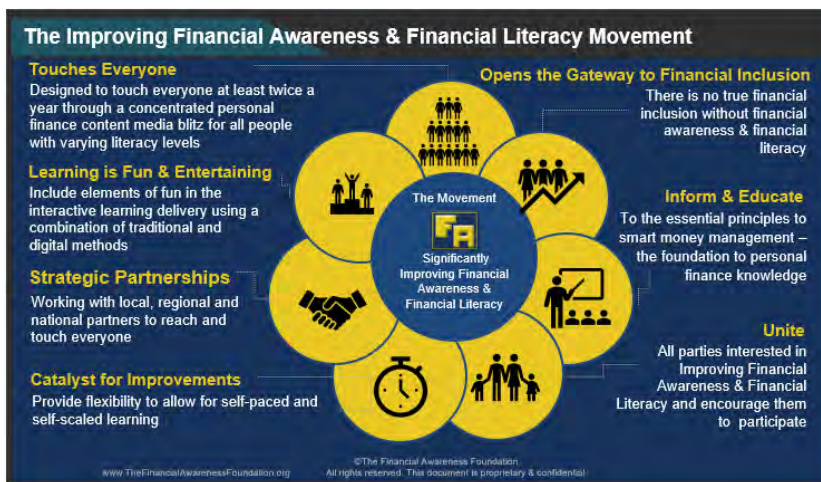

Most people are not taught the essential principles of smart money management – the foundation to personal finance knowledge - at home or in school. Thus, they don't have the proper tools to address everyday money decisions in an informed manner. This jeopardizes their financial and physical wellness, their ability to realistically achieve and maintain their personal and family financial dreams, let alone enjoy a financially secure debt free future.

One Powerful Solution

Wouldn't it be great if there is a real solution to this lack of financial awareness and financial illiteracy epidemic?

We **strongly** believe there is, and it revolves around better educating the general public – rich to poor, educators, financial service and nonprofit professionals on the essential principles for smart money management – the foundation to personal finance knowledge - while motivating them to get and keep their financial, estate and gift plans in order. People need access to better personal financial management tools and information, to communicate and work more effectively with their financial advisors and financial product providers, and to make better informed everyday money decisions.

We believe having better financial knowledge changes your world and the world around you... FOREVER

Countries and their communities are not financial service institutions and do not generally provide personal financial advice. However, countries and communities can serve as advocates for their citizens, workers, and politicians (The Community), and thus can encourage them to learn about the essential principles of money so they can make better everyday informed money decisions. Also, they can encourage the members of The Community to get and keep their financial, estate and gift plans current as part of their personal growth and preparation for life and all its challenges.

Countries and their local communities are in a strategic leadership position to materially improve the quality of life of their citizens. This happens through governance, social welfare programs, laws and taxes, defense and protection, advanced healthcare, educational initiatives and through a new powerful life-long learning connection to the people that make up The Community.

Forming and participating in *The Improving Financial Awareness & Financial Literacy Movement in Somalia* will benefit 'The Entire Community in Somalia' by having happier and financially successful constituents, creating jobs and helping to build a robust economy, while reducing poverty, crime, and the strain on social welfare services, all while eradicating the financial illiteracy epidemic.

Significantly improving financial awareness & financial literacy can have a major positive impact on:

- **Healthcare** - Advancements in healthcare and technology are helping us to live longer, healthier, and higher quality lives. Improving financial awareness and financial literacy will help us earn more, and attract needed money for a high-quality education to take advantage of these healthcare advancements while reducing stress, a major cause of health problems.
- **Education** - Improving financial awareness and financial literacy will help us increase our quality of life, and attract the needed financial resources to advance our education system so that every man, woman, and child has the fundamental life skills, knowledge, and opportunity to live successful, happy and productive lives.
- **Agriculture & Food Supply** - The important agricultural sector is under developed and largely inefficient, employing 80% of the workforce while contributing less than 63% to the national GDP. In many parts of the world under 10% of the agricultural workforce feeds the entire populations and has surplus for exports. Improving financial awareness and financial literacy will help to better manage natural resources, better feed and provide for the growing population, while creating higher paying jobs for farmers to better grow a sustainable economy. ⁽²⁾
- **Economic Empowerment & Jobs** - Key drivers of our economy revolves around every man, woman and child having their basic need covered with encouragement, education and support to enhance all to live successful, happy and productive lives. We give particular emphasis to significantly improve financial awareness and financial literacy as this empowers all people to make better informed everyday money decisions. This helps all Somalians to obtain great jobs and build a better life for themselves and their families. This also encourages families, youth, women and men in Somalia to explore and initiate innovative businesses and micro-enterprises.
- **Peace & Reduced Violence** - Lasting peace and reduced violence will only exist when THE PEOPLE of Somalia are properly nourished, healthy, have low or no debt, and have the knowledge and life skills that provides them the opportunity to live happy productive lives, raise their families in safety - and don't run out of their personal wealth and become a burden, before they pass.

How The Improving Financial Awareness & Financial Literacy Movement in Somalia Began

In December 2021 Mohamud Abdulkadir, CEO, Bushra Microfinance connected with Peter Kwadwo Asare Nyarko, a Financial Literacy Advocate & Educator in Ghana who is the Founding Executive Director of Center for Financial Literacy Education - CFLE Africa (NGO), and Lead African & Ghanaian TFAF Ambassador & Advisory Board Member. Both shared their interest on the importance of solving the lack of financial awareness along with eradicating the financial illiteracy epidemic in their home counties, in Africa, and around the world.

Peter introduced Mohamud to The Financial Awareness Foundation (TFAF) and Valentino Sabuco the CEO/Executive Director. The Financial Awareness Foundation is a 501(c)(3) USA based nonprofit organization, of which Peter is the TFAF Lead Ambassador for Africa and Ghana. Peter shared his vision for Somalia and Africa, where every single Somalian is financially aware and financially literate, and an Africa where people are financially empowered and educated to make their own informed personal finance decisions.

Mohamud, Peter and TFAF collaborated on strategies to execute our mandate to support **The Improving Financial Awareness & Financial Literacy Movement** in Somalia, in Africa, and around the world. They crafted this **Executive Summary / Overview for The Movement in Somalia** and have begun assembling a team to champion this course in Somalia, in Africa and around the world. They are identifying and uniting thought leaders with associations, organizations, nonprofits, educational institutions, municipalities, employers, the news media and concerned individuals to actively focus this vast community resource into **The Improving Financial Awareness & Financial Literacy Movement in Somalia, in Africa, and around the world.**
